FILE HEADING.

Nature of Sanitary works which require reference to the Sanitary Board.

From

The President of the Municipal & District Boards, Chitaldrug.

No. 461   Dated 20 4.08   Received 21 4.08

Diary No. 7785	Enclos. /	Spare Copies.	Serial No. /

BRIEF ABSTRACT OF LETTER.

Solicits definite orders in regard to the classes or kinds of works that go to constitute Sanitary works that have to be placed before the District Sanitary Board for opinion.

NOTES AND ORDERS.

In October 1898, the Chief Engineer forwarded certain draft rules relating to the preparation and submission of Sanitary projects. The draft rules referred to were circulated to Presidents of Municipal and ~~Local~~ Dist. ~~Taluk~~ Boards for opinion (vide Govt. Pro. No. 2249-59 / L. 731-00 dated 24th Nov 1900) ~~but~~ they have not been published. 5

NOTE.—First sheet.

GPB-30,000-20-3 06.

Gen File No. 234 of 1907

Serial No.

In the draft rules it is stated that no sanitary work estimated to cost more than Rs 200/- should be undertaken by any L. F. Board or Municipal Board without the prior approval of the Chief Engineer.

The nature of the sanitary works are the following (1) Building of Hospitals, dispensaries, markets, slaughter houses, latrines, incinerators urinals, cess-pools, &c (2) water-supply; and (3) drainage.

In the Health Scheme order of 8th April 1905, Govt. directed that estimates for all sanitary works, whether Urban or Rural, should be scrutinized as follows before sanction be accorded by the president or by Govt as the case may be:-

(a) works costing Rs 500/- & below by the Executive Engineer and the District Medical & Sanitary officer, and (b) those costing above Rs 500 by the Chief Engineer & the Senior Surgeon & Sanitary Commr.

In the Health Scheme order of 6th August 1907, Govt. have directed that it shall be the duty of the District Sanitary Board to advise Municipal & District Boards in regard to all schemes for sanitary improvement which may be under the consideration of such Boards & that all schemes involving an expenditure

G. R. S. 12]
General and Revenue
Secretariat.

San File No. 234 of 1907

Serial
No.

expenditure of over Rs 1000/- shall be submitted to the Central Sanitary Board for opinion.

In the letter under disposal the President District Board, Chitaldrug, requests definite orders in regard to the classes or kinds of works that go to constitute sanitary works. He states that the marginally noted items of works are ordinarily sanctioned and carried out by the several Municipal and District Boards within their powers of sanction and if they are to be construed to be sanitary works, the opinion of the District Sanitary Board becomes a matter of necessity and consequently there will be much delay in the execution of works and the funds allotted for the works will lapse. As an instance of delay the President states that the question of acquisition of certain properties, at a cost of Rs 104/- for opening out roads in Agasarakere, in the Harihar Municipality, proposed in Septr/07, is still pending as it is not possible to consult the District Medical & Sanitary officer of the District as to the sanitary aspect of the work. The President suggests that only those sanitary works which in the opinion of the Municipal & District Boards require the advice of the District Sanitary Board may be referred to it for an expression of opinion. Submitted for orders.

onstructing & repairing of drains.
(2) Sinking of wells
(3) opening out roads, widening of streets & removing congested portions.
(4) other petty works.

The District Medical & Sanitary Officer was wrong in saying that he could not inspect the locality as there was no provision in the Budget to meet his travelling allowances & the Division Officer could have easily inspected the locality before he went to Chillumpal ~~[illegible]~~ on urgent call. However the circumstances represented by the President, some definite orders in the matter of the Execution of Sanitary works are called for. At present, the District & Municipal (Hd Quarters) Boards in which the District Medical & Sanitary Officers & the Executive Engineers take active interest ~~[illegible]~~ ~~to~~ know the local conditions & requirements much better than the District Sanitary Boards & as the powers of these Boards are limited to the extent of sanctioning projects upto 500 Rs, it would be unnecessary to interfere with their ~~powers. Exp~~ All projects costing Rs 500/ & upwards

~~Please see my note in Sani File 201 of 07-08 for opinion etc.~~

In Sani file 201 of 07 I have noted on the general relations between the Sani Bd & the Local Bodies.

On the question raised by the Dy Commr Chitaldrug in this file I think that all Sani works should go before the Sani Bd for opinion. Perhaps an exception made in the case of petty works & repairs costing not more 50Rs each.

The Dy Commr quotes the case of a certain work at Harihar to illustrate his remarks. ~~It~~ The action of the Dt Medl & Sani Officer & the Divisional Sani Officer in not inspecting the work at the request of the Dy Commr is most unsatisfactory & the explanations for the nonperformance of the inspection are equally unconvincing.

G. R. S. 12]
General and Revenue
Secretariat.

Sanitary File No. 234 of 1907

Serial No.

The Dnl Sany Officer ~~cong~~ could & ought to have inspected the place as soon as his urgent work in Chickmagalur was finished. The Dt Medl Officer's excuse that there was no provision for ta in the budget must be considered even more unsatisfactory than the Dnl Sany Officer's.

I think the attention of the Sngn & Sany Comr should be drawn to these facts & he be asked to take suitable notice of the conduct of the officers concerned.

Referred to the 2nd Councillor, as the main question raised by the D. S. Comr, Viz What in fact are "Sanitary works ~~work~~ for the purpose of the new scheme, does not seem to have been answered. May not the San. Comr be asked to express his views on the point & final orders passed later on?

This may be done KWH 5/6/08

In my opinion it is not every work, however petty, affecting in the remotest degree* the health or sanitation of a locality that should be included under the description, but such works alone as visibly and directly affect public health, in a material degree. The extension of a town, the construction of a new drinking water well, the formation* of a new system of drains, are examples of Sanitary works proper; while repairs to existing drains costing small amounts, the diversion of roads, & so forth, would not ordinarily be such.

8 From the Sanitary Commr, No 1338 of 24.9.08. Forwards the explan of the Dt Sanitary Officer for — do — do —

The President of the Distt Board of Chitaldrug has, in serial 1, sought for the definite orders of Govt on the question as to what the classes or kinds of works are that go to constitute sanitary works for the purpose of the new scheme sanctioned in the order of the 10th August, 1907. He quotes the case of an acquisition of certain properties in the Harihar town which was inordinately delayed for want of the opinion of the Distt Medical and Sanitary Officer as regards the sanitary aspect of the proposed acquisition and suggests for orders that only such works as, in the opinion of the Municipal

and

Serial No.

and Distt Boards require the advice of the Distt Sanitary Board, may be refd to it for opinion.

The Sanitary Commr who was written to on the subject states that broadly speaking, sanitary works include (1) water supply (2) Drainage (3) Town improvement and (4) new Constructions; that all matters coming under the above heads should come before the Sanitary Board, and that no change on the lines suggested by the President is required

(As regards the omission on the part of the Distt Medical and Sanitary Officer and the Dy Sanitary Officer to inspect the work of acquisition of certain properties at Harihar refd to above although they were required by the Presdt, to inspect it the Sanitary Commr states that the explanations of the Officers may be accepted).

On pages 5 & 7 of these notes, both the Secy and the Offg Secy: have suggested that an exception be

Sanitary File No. 294 of 1907

NOTE—Contn. sheet.

Serial
No.

U.O. No. 6
13-11-08.

This whole difficulty seems to have arisen out of the delay which this particular Dy. Commissioner experienced in one particular instance through the incompetency of the ~~medical~~ Sanitary Member of the District Board to discern what his bounden duties were —. As I have said elsewhere an instance like this should not form a ground for undermining the authority of constituted Boards. Such a mistake is very unlikely ever to occur again, and further there will be none of the delay that is anticipated in carrying out the intentions of Government.

Now to reply to the Secretary's queries under date 30.9.08:

It appears to me that minor sanitary works such as repairs to drains etc of the (floods e.g. might cause an urgent case) matter of clearly emergent, costing say R50 or under, not involving new construction need not come before the Dist. Sanitary Board. But emergencies will arise but seldom, and instead patching here and there, repairs in a connected scale should be undertaken & these should be brought before the Dist. Sanitary Board.

Note—Contn. sheet.

GPB—50.000—13-5-06

Serial No.

11 But diversion of roads and new works can never be of an urgent nature, and should come before the Dist. San. Board. The reason is this, that such diversion etc. if not made ~~with the~~ after consideration by the Dist. Sanitary Board, ~~completely~~ [illegible], may not fit in with works already approved by that Board, and may in fact convert a project which if carried out connectedly and under proper sanitary advice, would be an excellent one into a bad and insanitary one - For the purposes therefore of efficient continuity all such works should come before the Dist. Sanitary Board.

The fourth proviso is disposed of from the above.

The Order of the H. Govt. Para 4 subpara 9, constituting the Health Department, is, it seems to me carefully drawn up, and should be strictly ~~of~~ observed unless, as I have indicated above, emergent circumstances demanded immediate action

General No. 461
No.

Enclosure No.

Soliciting definite orders being issued in regard to the classes or kinds of works that go to constitute Sanitary Works referred to Government Proceedings No. 1378-92/San-8 dated 10 August 1907.

No. 461

F. No 234-07 V-1

District Board President's Office
Chitaldrug District.
Dated, Chitaldrug, 20th April 1908.

From

Mr. Chengiah Chetty, Esquire, B.A.
President, District Board,
Chitaldroog District.

To

C. S. Balasundram Iyer, Esquire, B.A.,
Offg. Secretary to the Government of
His Highness the Maharaja of Mysore,
General and Revenue Departments,
Bangalore.

Sir,

I have the honor to solicit the favor of definite orders being issued in regard to the classes or kinds of works that go to constitute Sanitary Works, referred to in Government Proceedings No. 1378-92/San. 8 - dated 10th August 1907. This order lays down that the advice of the District Sanitary Board should be obtained in respect of all such works before they are actually taken up for execution. At present, the works that are ordinarily sanctioned and carried out by the several Municipal and District Boards within their powers of sanction consist chiefly of the following descriptions:

(1) Constructing and repairing of drains both in towns and rural parts.

(2) Sinking of wells

(3) Opening out roads [illegible] widening of streets and removing congested portions both in towns and rural parts

(4) Other petty works.

2. If it is the intention of Government that the items of works enumerated above should be construed to be sanitary works, the opinion of the District Sanitary Board becomes a matter of necessity in respect of them irrespective of any money limit. This will unnecessarily cause inordinate delay in their execution and consequent lapse of funds in several instances, while the power of self-governing bodies like the Municipal and District Boards which are supposed to act in the best interests of their administration on all such questions on a clear knowledge of the local conditions and circumstances will unnecessarily be fettered.

3. As an illustration of the point under advertence, I beg to state that in December last, a declaration statement was submitted for the approval of Government of land

and houses to be acquired in the Harihar town in view to effect certain improvements costing not more than one hundred Rupees in Agasankeri street, where owing to much congestion, plague was breaking out almost every year. I was, however, called upon to obtain the y views of the District Medical and Sanitary Officer as regards the sanitary aspect of the proposed acquisition of the properties referred to, although the opinion of the local Hospital Assistant who has a seat on the Municipal Council, was in favor of the acquisition of the said properties. Thereupon, the District Medical and Sanitary officer was requested to furnish his views immediately, as the work in question was one of urgency and importance for the reasons set forth above, but he pleaded inability for want of funds to meet his travelling expenses in the medical budget and observed that unless they were paid from the Sanitary budget, his inspection will have to be postponed till the next year

(Vide copy of his letter enclosed)³. And when the Divisional Sanitary Officer who was here to attend the preliminary meeting of the District Sanitary Board on the 27th ultimo, was asked to visit the spot and favor me with his opinion, he also pleaded his inability by saying that he had an urgent call from Chickmagalur. Thus, the question of acquisition is still hanging fire, while its early disposal is being pressed for. It will, therefore, be seen that the necessity and the urgency of the simple work of widening a narrow lane has been subordinated to the expression of opinion of a Sanitary officer. It must, however, be admitted that the professional opinion of the rank and status of a Civil Surgeon should be sought for in all matters of importance, involving an expenditure of several hundreds of Rupees, but in a case of this kind, this procedure appears quite unnecessary.

4. I would therefore suggest for the kind consideration of Government that, in order to obviate the difficulty that has

now presented itself for solution only those Sanitary works which in the opinion of the Municipal and District Boards require the advice of the District Sanitary Board may be referred to it for an expression of opinion. This will, I am sure, afford every facility for the smooth working of several Boards Concerned.

I have the honor to be,

Sir

Your most obedient servant,

President

JW.

BANGALORE.

Sir,

D 1300

In reply to your No.12934 of 13th June 1908 forwarding copy of letter No.461 dated the 20th April 08 from the President,Dist.Board.Chitaldrug re acquisition of houses and lands in the Harihar town, I have the honor to reply as follows:-

2. I regretfully admit that the District Medicaland Sany. Officer's (Mr.Srinivasa Iyengar's) conduct in the matter at issue has been far from satisfactory and that he has deviated from the truth in his No.3787/160 of 12-2-08. He says that he was informed by the Senior Surgeon in his No. 3433-39 of 22-1-08 that the Budget allotment under Travelling Allowance for 07-08 was exhausted. Now on the contrary he was told that there was still a balance on 16-1-08 of Rs.343-9-6 and he was simply warned to be careful &c- copy of the memo is forwarded for information So on the head of funds he had absolutely no excuse for not making the inspection he was requested to make by the Deputy Commissioner. I will take due notice of his conduct

3. I enclose the Divisional Sanitary Officer's explanation & I think little or no exception can be taken to it and it has to be remembered that he is not a member of

Received

General No.

Enclosure No.

of the District Sanitary Board.

4. As to the Vice President's general remarks in his No. 461 of 20th April 1908 to you, I would state in the first place that broadly speaking sanitary works include :-

(1) Water supply

(2) Drainage

(3) Town improvement

(4) New constructions.

All matters coming under these heads are, by the orders of His Highness's Government to come before the Sanitary Board.

It is true that in a certain sense the self governing bodies are "supposed to act in the best interests of their administration on all ~~sanitary~~ such questions on a clear knowledge &c" but it is just on this point of"clear knowledge" the whole question rests. It is the old argument of "common sense" being the only thing necessary in these matters. But the world at large and His Highness's Government in particular has decided that this "clear knowledge" is not sufficient and must be guided by "special"knowledge and with this object has constituted the District Sanitary Board to guide the self governing bodies in matters that concern the health of the people.

5. The illustration given by the President does not support his contention at all. It only shows that one or more officers had failed in their duty and thus caused delay which was wholly unnecessary and avoidable, and which none regrets more than I do.

6. Suppose the suggestion of the President in para 4 of his letter were adopted;- what would it amount to? Just this that the District Board would become the advisors of the Sanitary Board instead of the opposite being the case.

7. No change is therefore required; what is required

is that every man should do his duty.

I have the honor to be,
Sir,
Your most obedient servant,

Sanitary Commissioner.

His Highness the Maharaja of Mysore.
General and Revenue Departments.
BANGALORE.

Sir,

With reference to the statement in my letter No. 722 dated 19-8-08 that Mr. Srinivasa Iyengar had departed from the truth in informing the Deputy Commissioner, Chitaldrug, that he could not make a certain sanitary inspection because he had been informed by this office not to tour as funds were exhausted, I have the honor to forward Mr.Srinivasa Iyengar's explanation which so far as the matter goes may, I think, be accepted. He knew the funds were exhausted when he wrote to the Deputy Commissioner and, without looking up the document received from this office carefully, he wrote saying he had received information that they were exhausted from this office. I think therefore no dishonesty is attributable to the Assistant Surgeon, and therefore that when I stated he had departed from the truth in what he said to the Deputy Commissioner, my expression was unnecessarily strong.

I have the honor to be,

Sir,

Your most obedient servant,

M.D.,
Lt.Col.I.M.S.,
Sanitary Commissioner.

Chittaldroog
23/24 / 8/08

Smyth M.D. I.M.S
Senior Surgeon
Mysore Govt
Bangalore

In continuation of my D.O dated the 8/08, and, for fear of my not having made myself clearly understood therein, I beg to submit the following lines in the hope that you will be pleased to give them your favourable consideration

My

My travelling allowance bill for December 1907 submitted to your office on 10/12/1/08 clearly showed that the Sanctioned Budget allotment had been fully used up. Shortly after its submission, I received your office No. 3683 – 39 dated 22/1/08 in which I was warned to keep the Expenditure on account of travelling allowances within the Sanctioned allotment. That docket where showing Rs 300 odd balance, did not materially take into account certain charges of Expenditure already incurred, (a few of these items had been passed and drawn: only one item had not been passed and drawn). As a matter of fact — and on the points these there is no question, — no portion of the sanctioned allotment was, then available. When, therefore, the D.C. in February 08 asked me for a reply in re my tour to Harihar, the ideas prominent in my mind were (1) that the allotment had been exhausted (2) that I had been, officially, warned not to exceed it. Hence my reply to the D.C which, while quoting your docket was, unfortunately marred by an inadvertent inaccuracy of expression, which I extremely regret and which I, respectfully beg to be, kindly, overlooked. What I should have said was "the Senior Surgeon has warned me to keep within the Budget allotment but, that

that allotment has been already, executed
instead of this I unwittingly said
the Senior Surgeon has informed me that
the former would have answered the
purpose quite as well as the latter, and
I submit that I had, absolutely, no
motive for deliberately making a misstatement
the misquotation, now objected, was I may
assure you, due entirely to a misapprehension

There being a warning from you
and a knowledge on my part my
ideas got, somehow, mixed up, and
I put the two together, and, in good
faith, thought that your docket, —
the wording of which, then, escaped my
attention, warranted my writing the
D.C, in the manner I did

I had nothing whatever to gain by mis-
-representing the purport of your docket

docket and all I was guilty of was an omission to refer carefully to the language of that communication, when writing to the D.C. I knew that there was no money and therefore, that I could not tour and I knew also, that you had officially, asked me not to exceed the sanctioned allotment. By a confusion of ideas, I unfortunately thought you had told me that the allowance having been exhausted, I should not tour until funds could be made available by reappropriation or further grant and I wrote accordingly to the D.C.

In conclusion, I beg once more to express the hope that

that you will be graciously pleased to put a charitable construction upon my action and accept my explanation

I remain, Dear Sir

Yours most obediently
Sincerely
N Srinivasa Aiyangar

Lt. Col. J. Smyth M.D. F.R.C.S.
Senior Surgeon
Mysore Government
Bangalore)

Dear Sir

I am very highly thankful to you for your kind D.O. letter dated 11-8-08, and the good advice, therein. I cannot sufficiently express my gratitude for giving me an opportunity to place before you the facts as recorded here and as despatched to your office

The Place (Harihar) was actually inspected by me in this connection on 18 $\frac{4}{08}$, when I went to the Davanagere Court, as a witness my opinion was communicated to the Deputy Amildar of Harihar there & then i.e. of 18 12/07 I was prepared to arrange to visit in Jany or alone. at all costs, if the matter was, really, so very urgent & stated to be so. During the Local Board meeting of 3 1/08, when we met, the Deputy Amildar said I may visit the place later on, as early as practicable The D.C. was also, of almost the same opinion When the matter was placed before the meeting of the District Sanitary Board on 4/5/1/08, the Divisional Sanitary Officer said he would give his opinion soon after inspection of the site, when he went on tour to Harihar. I said I would inspect as early as practicable after receipt of a reply from my Head Office in re the sanction of Tr. allowance on The President said he would address the Durbar to empower him to pass such trifling amounts himself & to dispense all such inspections by us, or something to that effect. The matter ended there then

Canvass Correspondence in re the same by the Amildar Hanihar was referred for my opinion only on $8\frac{8}{08}$ to Hanasal Camp & the same was duly replied on $13\frac{8}{08}$

As regards my docket to the Depty: Commissioner which is stated to have been sent to the Govt. and found objectionable as regards the record of the sequence of events, I wish now very much that your No. and date had not been quoted therein, and with this omission, the docket would have been unobjectionable on all points. I am sorry I was not very careful in going minutely through & weighing every word of the draft & the clerical errors. But the fact of the Budget allotment being exhausted by the town within that period, is supported by the records received in your Office, prior to $22\frac{1}{08}$. which seemed to form the basis of the warning repeated on that date and induced me to address the D.C. & yourself.

The extract of the I.A. bill for December/last

Sent on 12 1/08 & received probably on 13 1/08 or 14 1/08 that of the previous circular on the same subject dated 31 12/07 Corroborate by record the truth of the statement of allotment being short and warnings given me twice not to exceed the same. The extract of the statement of expenditure on Tr. allowances dated 10 1/08 with the red ink figures in the Remarks column, also support the same statement

You are too good and too noble to recommend me for dismissal for the mere fault of not correcting a carelessly worded letter or docket addressed to the Dy. Commissioner & sent by him to the Govt.

To err is human. I may have erred like many others. I beg of you to forgive me for any faults or flaws unwitting & unintentionally committed

I beg to remain, dear Sir,
Yours most obediently & sincerely

Bangalore

Sir,

With reference to your docket No 5045 dated 18.6.08 enclosing an extract from letter No 461 dated the 20th April last, from the President District Board, Chitaldrug, to the Secretary to Government General and Revenue Departments and asking me to explain the circumstances under which it was found not possible to inspect the town of Harihar when requested by the President of the District Fund Board to do so etc, I have the honor to state that from my knowledge of the matter the facts connected with it do not seem to have been properly stated. The President's letter under reference. It is positively certain that the preliminary meeting of the Chitaldrug Sanitary Board held on the 27th and 28th of February and not of March last, as would appear to be from the President's letter, wherein from "ultimo, it has to be understood, since the letter seems to be dated April, the month previous to that date viz March. I remember having been casually asked then, by the President for an opinion I believe on the proposed acquisition of the properties in Agrahara at Harihar which I am sure you will agree with me when I say, could not be given without holding a local inspection. I should have done the necessary inspection immediately but for the receipt, just then of a letter from the District Sanitary Officer, Chickmagalur, requiring my services at Sakrepatna on inoculation duty. I was, therefore obliged to ask the President to send, for an inspection at a later date. The

General No. 356.
No.

Enclosure No.

Explains the circumstances under which the town of Harihar was not inspected as alleged by the President District Fund Board when required to do the papers connected with the matter which I regret to say he has not yet done. If "the question of acquisition is still hanging fire", it is because the papers connected therewith are still in the President's Office. As could be seen from the observation at the last part of the extract from his letter, under the impression that "professional opinion of the rank and status of a Civil Surgeon" is necessary only "in matters of importance involving an expenditure of several hundreds of rupees" but not in a case of this kind where such in the opinion of the President, is "quite unnecessary" the required opinion was apparently not sought for.

I have the honor to remain
